

**ISERS**

INTERNATIONAL SOCIETY OF  
ENVIRONMENTAL RELATIONSHIP AND SUSTAINABILITY

INTERNATIONAL SOCIETY OF  
**ENVIRONMENTAL RELATIONSHIP AND**  
**SUSTAINABILITY**

## ABOUT

- \* International Society of Environmental Relationship and Sustainability (ISERS) is one of the leading non profitable professional association meant for research and development in the field of environmental sciences.
- \* ISERS serves as an excellent international forum for Environmentalists, Biologist, Climatologist, Geologist, Meteorologist, Researchers and also form NGOs and governmental organizations for best practices and latest advances in environment and research.
- \* ISERS devoted to advance and promote information that identifies the main developments, challenges and opportunities by means of lectures, discussions, meetings and reports from time to time.

- \* ISERS committed to promote highest ethical and professional standards of environment & Research, encourage intellectual development and provide opportunities for networking and collaboration.
- \* ISERS connects you to a global community of eminent environmentalist professionals and actively associated in managing several academic programmes.
- \* ISERS meets with its objectives through academic networking, meetings, conferences, projects, publications, academic awards and scholarships. ISERS strives to enrich from its diverse group of advisory members.

## OUR SERVICES

The main focus of ISERS is to make peers and wizards meet and to share their experience, knowledge and provide scope for scientific interactions by organizing International Conferences and Global Standard events in different Institutions and Universities. ISERS provides access to information to advance careers, skills, and innovations in approaches towards carbon sequestration, global warming, greenhouse gases, pollution and climate change, climate hazards, GIS and remote sensing, climate change and health, ecology and ecosystems, renewable energy, green nanotechnology, climate solutions, disaster risk reduction (DRR) and climate policy.

International Conferences & Scientific Events

Journals/Publications in  
(SCOPUS/SCI/ESCI/UGC/Web of Science etc)

R&D Assistance- Technical advice to researchers and academicians with a vast network of international experts from cancer research and cancer-related sciences.

International workshops to inspire young Oncologist and multi-disciplinary researchers across the globe

Membership (Institutional/Professional/Student)

Establishing Chapters (Professional/Student)

Seminars/Guest Lectures

Faculty Exchange Programme

## OBJECTIVE OF ISERS

The major objective of ISERS is to offer quality education and resources to the professionals from environmentalists, climatologists, ecologists, marine biologists, geologists, meteorologists & several sub-specialities and create awareness on the progress of various facets of environmental relationship and sustainability research.

- ✳ *To collaborate with Universities/Institutions to identify researchers and innovators in environmental sciences and related disciplines at grassroot level and to bring them at a global platform.*
- ✳ *To promote professional development opportunities and focused scientific initiatives that facilitate increased progress and enhanced cutting-edge contributions to environmental sciences & research.*
- ✳ *To organize training programs and conferences with an aim to bring environmentalist, climatologists, ecologists, academicians, students and researchers under one umbrella so their ideas can be synergized and enable them to become future leaders of the profession.*
- ✳ *To promote leadership among members while abiding the highest professional and ethical standards.*
- ✳ *To establish, maintain and expand national & worldwide network of multi- disciplinary team of professionals and address issues of importance in areas of climate change, global warming, disaster risk reduction, go green technology, education, research, administration and policy.*

## OUR VISION

- ✳ Inspiring excellence through innovative training programs and strategic professional relationships.
- ✳ Advancing scientific knowledge and resource for networking, education, and dissemination of research, exciting progress on a wide variety of issues, practice-based and translational research with significant focus on collaborative partnerships.
- ✳ Capitalizing on our spirit to improve environmental research and education worldwide

## OUR MISSION

- ✳ To uphold our social responsibilities of delivering highest standard training, research and development to advance environmental sustainability and development, pollution control technologies and devices, waste management and treatment, advocates toxic free environment, strengthening organizational commitment and capacities to drive green economy policy development without compromising on our core values of integrity, good ethics and commitment.
- ✳ ISERS strives to become an expert in organizing conferences, summits, seminars and workshops with resourceful and nonpareil speakers throughout the world.

## OUR VALUES

- ✳ ISERS recognizes the importance of ethical behaviour and integrity and will guide the future for better development by ensuring the principles of integrity, continuous learning, innovation and leadership.
- ✳ The core values of ISERS are Innovation, Ensure Quality, Research & Development, Continuous Improvement, Ambition to succeed, Collaboration and Teamwork.

*Connecting with Experts and Scholars from Multi-Speciality Environmental Professionals, Biologists, Research scholars and Postdocs*

*Organizes international conferences, training programmes, seminars, symposia and workshops, updates on latest technology on various facets of Environmental Science & Research*

*Global platform to convey recent developments with the goal of pursuing research towards leading resource in environmental research and academic practice*

*Access to senior-level executives and tremendous networking opportunities to meet leading international professionals*

*Platform to engage in exciting event format and multiple conference tracks. Share experiences, insights and strategies in interactive peer to peer round tables*

*Provide access to the latest national and international updates in a crisp and a defined format in Environmental Sciences & Research*

*Offers a broad variety of fellowship opportunities, scientific meetings, publications and resources*

*Serve as an Information Transfer platform and environment sustainability education of vastly updated, relevant material to a broad audience*

*Publication of research work that contributes significantly to further the scientific knowledge in Pharma and Pharmaceutical Sciences in SCI/ESCI/SCOPUS/WoS/UGC/Google Scholar Indexed Journals*

*Awards for best paper and poster presentations*

## ISERS ACHIEVEMENTS

**3032 +**  
Members

**2513 +**  
Scientific  
presentations

**1057 +**  
Publications

**44 +**  
International  
Conferences

**123 +**  
Guest Lectures  
& keynotes

**28 +**  
MoU's

ISERS is one of the growing associations with more than **3022+** members including environmental scientist, climatologists, ecologist, meteorologists, marine biologist, geologists, biologists, agronomist, industrialists, petrologists, academicians, research scholars and post doctorates interested in advancing the profession. It serves as an excellent resource with the latest happenings and breakthroughs committed to the improvement of environmental research through seminars, conferences, workshops and publications.

## MEMBERSHIP BENEFITS

- ✳ Membership of ISERS brings a wealth of resources. Global trends and advances, best practices, the evidence, support for advocacy and strategic activities and a vast global network
- ✳ ISERS membership connects you to a multi disciplinary global network of thousands of students, post docs, and nursing specialties from around the world.
- ✳ Can be a Keynote Speaker, Session Chair / Chairperson & Organizing Committee member of the Conference organized by ISERS.
- ✳ Can be an Editorial Board member, Reviewer, Advisory Committee member of ISERS to maintain the quality control of research.
- ✳ Can be a Visiting Professor to the Universities collaborated by ISERS and receive the designations such as Honorary Fellow of ISERS, Fellow of ISERS, etc.
- ✳ Sessions during the annual conference of environmental science and webinars highlighting new activities, research focused with valuable educational opportunities, shaping professional lives and career enhancement.
- ✳ Discounts on registration fees for the Conferences & events organized by ISERS.
- ✳ Can publish your research and investigation results in SCI/ESCI/SCOPUS Indexed Journals or present them at ISERS Meetings.
- ✳ Recognition opportunities and Awards for the best research paper and best poster presentation.

## ABOUT CHAPTERS

ISERS fosters growth in the Environmental Science & Research through its chapters worldwide. Chapter members reflect all facets of environmental sciences from academia & research to basic & advanced research, carbon sequestration, climate change and global warming, greenhouse gases, pollution hazards, GIS, remote sensing, ecology and ecosystems, renewable energy, green nanotechnology, climate solutions, Disaster Risk Reduction (DRR) and climate policy.

- ✳ Regardless of size or location and category of membership, every ISERS chapter offers its members a wealth of benefits, including access to research opportunities and to establish a personal networking system in the region.
- ✳ ISERS supports the chapter members to make their research worth for availing benefits.
- ✳ ISERS continue to expand its presence in environmental sciences, research and influence through partnerships with some of the world's leading health, policymaking, education and science institutions.
- ✳ ISERS local chapters around the world host Guest lectures, conduct workshops by internationally known Environmental and related discipline professionals.
- ✳ Participation in all these chapters provides a unique combination of social interaction and professional networking among peers in their respective geographic areas.

## CONFERENCES AND EVENTS

- ✳ ISERS collaborates with Universities, Organizations and other Associations for organizing conferences, scientific events, publications, professional meetings and workshops on advances for an effective interdisciplinary research of highest standards in research and nursing practices.
- ✳ ISERS have started its dedicated journey by organizing global standard events and International Conferences in different Institutions, Universities & conventions
- ✳ The conference will provide ideal forum to stimulate ideas and establish collaborations, as well as to launch intense discussions to secure collaborative projects and to present a highly interactive, stimulating and multidisciplinary program comprising of highly engaging workshops, plenary sessions and edifying round tables
- ✳ ISERS Conferences and Events bring together people who share a common discipline from different parts of the world, bringing different forms of ideas which build into something greater.

## Research Consultancy

- ✧ ISERS Provide reliable professional services and support Environmental and related discipline specialist and practitioners, research scholars, post-doctoral researchers for completion of their research work with professional guidance and academic support
- ✧ ISERS provides research consultancy and technical advice to researchers and academicians with a vast network of international experts from environmental relationships and sustainability research
- ✧ Offers professional development activities, information and educational resources for graduates, research scholars and environmental science societies at all stages of their careers
- ✧ Providing regulatory information, schedules and compliance related inputs with expertise in research facility tie-up and continuing medical education

## Institutional Assistance

- ✧ ISERS supports Universities/Institutions for organizing conferences, Meetings, Summits, Research Talks, Workshops by collaboration and support researchers to make their innovations and research work more efficient and effective.
- ✧ Drives nursing centred practices and health policies through our global platform
- ✧ ISERS strengthen its mission of promoting professional education through the effective use of policy, information, advocacy, and programming.
- ✧ ISERS devoted to publish original research articles and reviews in SCOPUS/SCI/ESCI/UGC/Web of Science Indexed Journals
- ✧ ISERS encourages and supports the research scholars by appointing its members to provide necessary guidance to build and globalize their innovative ideas.

## PROFESSIONAL ASSISTANCE OF ISERS INCLUDES

- ✧ Training Programs
- ✧ Research Consultancy
- ✧ R & D Assistance
- ✧ Education and Career Resources
- ✧ Career Development
- ✧ Providing Membership Benefits
- ✧ Young Doctors/Innovation Award
- ✧ Best Research Paper Award
- ✧ Career Development Award
- ✧ Research Professorship Award

## JOURNALS AND PUBLICATIONS

- ✧ ISERS Publish research articles in the prominent open access Journals that promote and globalize innovation of researchers by publishing within the chronicles, journals and transactions of worldwide periodicals.
- ✧ ISERS publications have shown marked growth in terms of global outreach, impact factors, downloads, citations, quick decision rates by the peer reviewers, number of submissions and stringent acceptance rates.

Publications in globally distributed high impact factor reputed International Journals:-

- ✧ SCOPUS Indexed Journals
- ✧ Springer
- ✧ ESCI
- ✧ Web of Science
- ✧ IoP Conference Series
- ✧ UGC Care
- ✧ Google Scholar Indexed
- ✧ ISI
- ✧ Editorial Board for swift peer-review and convenient Publication.
- ✧ Plagiarism, review reports, Increase Citations publish quality over quantity
- ✧ End-to-End Publication Assistance

# ACADEMIC RESEARCH COLLABORATION

- \* ISERS is proud to have collaborated with several internationally recognized institutions, associations and organize International Conferences, Scientific events, R&D Assistance, Faculty Development Program, Workshops, Annual Meets and Student Chapters.
- \* The goal of ISERS is to create a worldwide integrated scientific platform with well-connected resource and strive to make a difference through careers that combine discovery, education and environmental care.
- \* With our mission to make our academic services reach the top, we are sponsoring Universities/Institutions to organize conferences and scientific events by which researchers across the world could directly contribute towards advancing the goals of different environmental specialities to training and education.
